

2021-2022 SPRING SPORTS SAFETY PROCEDURES

At the YMCA of Greensboro, the health and safety of our program participants, members and staff is our top priority. We will implement COVID-19 transmission prevention protocols based on guidelines from national, state and local health officials, including those from the NCDHHS, the CDC and local health departments.

- 1.** All staff, players and coaches will undergo health screenings and temperature checks when they arrive at a YMCA facility or grounds. If their temperature is 100.4 or above, they will be asked to leave. If a player or coach is feeling ill, they will not be permitted to participate in the activity.
- 2.** Players and coaches will sanitize their hands (using soap and water or hand sanitizer) upon arrival, during water breaks and after games. A staff member will be checking on participants throughout the activity to ensure the proper use of hand sanitizer. Hand sanitizers used will contain at least 60% alcohol.
- 3.** Players and coaches must wear face masks at all times.
- 4.** If a player or coach has been exposed to or diagnosed with COVID-19, they must quarantine for 14 days and follow the NCDHHS's guidelines.
- 5.** If a player or coach experiences symptoms of COVID-19, they must remain home until they receive a negative test result.
- 6.** Players and coaches must bring their own labeled water bottles.
- 7.** Storage areas for players' personal equipment will be marked. All shared equipment will be cleaned and disinfected between uses and at the end of each session.
- 8.** Markings on the field will designate where spectators may sit. All spectators should wear face masks, practice social distancing and bring their own chairs.
