SPEARS YMCA

AFTER-SCHOOL CARE EXCEL AFTER THE BELL

The YMCA is recognized as a national leader in safe, supportive and nurturing childcare. Qualified and caring staff focus on nurturing the development of each child. Our holistic approach helps children improve their study habits and reading skills, build healthy eating and physical activity habits, and gain exposure to the arts, STEM (science, technology, engineering and math), global learning and more. We are willing and confident in our ability to help children continue to learn, grow and thrive during this difficult time.

This program, like all of our other initiatives, operates with thorough health safeguards to protect our students and staff members. Our specially trained team helps practice social distancing, frequently disinfect program spaces and shared items, perform regular health checks and make sure all kids stay safe while learning and having fun. **Currently serving grades K-5.**
