AFTER SCHOOL AT THE Y!

LEARN WITHOUT LIMITS

ROCKINGHAM COUNTY YMCAs

AFTER-SCHOOL CARE

EXCEL AFTER THE BELL

The YMCA is recognized as a national leader in safe, supportive and nurturing childcare. Qualified and caring staff focus on nurturing the development of each child. Our holistic approach helps children improve their study habits and reading skills, build healthy eating and physical activity habits, and gain exposure to the arts, STEM (science, technology, engineering and math), global learning and more. We are willing and confident in our ability to help children continue to learn, grow and thrive.

This program, like all of our other initiatives, operates with safeguards in place to keep our students and staff members healthy. Our specially trained team helps practice social distancing, frequently disinfects program spaces and shared items, performs regular health checks and make sure all kids stay safe while learning and having fun. **Currently serving grades K-5.**
